Will open Tuesday, Feb. 5, over Sam Wahl's store, in Falls City, Neb. All ladies interested in high art Dressmaking and Tailoring, should not fail to avail themselves of this opportunity.

**You will learn the Diagram Method**

The same as the tailors use. We are the only concern in this country publishing the latest imported fashions and complete diagrams for drafting each fashion. No lady's education is complete without the art of dressmaking, no trade or art is so greatly needed. The art of dressmaking will be no burden to anyone, no matter what her position may be, she can never lose it, no one can ever deprive her of it. She is an independent woman. The only way to learn dressmaking is to go to school where every branch of the trade is taught, where you cut, fit and make each garment under the supervision of an instructor paid to teach you.

**We have now in Falls City one of the most Complete Schools ever Taught in this part of the Country**

The art of Ladies' Tailoring and fine dressmaking will solve the question of dressing yourself, your family or dressmaking for others. You can make your own garments while learning the trade, free of charge. This is a very important thing to take into consideration when learning this trade. Our sewing department is under the management of skilled lady tailors and dressmakers. Each pupil will be taught drafting, cutting, fitting, basting, sewing, stitching, and pressing scientifically in any and all styles of garments for ladies and children and when you leave our school you will be your own dress maker. Our schools are very successful, our patrons are the wives and daughters of the best families as well as the middle class and the poor, they are all treated alike by us.
